ICBM COMPLEX, OLOVYANNAYA, USSR  
LAUNCH AREA C

25X1D

This report, based on KEYHOLE photography through [REDACTED] updates information on Launch Area C (3)\* at the Olovyannaya ICBM Complex contained in NPIC / R-227/64, dated April 1964. 1/ Launch Area C (51-01N 115-58E) consists of a completed Type IIIA launch site and a site support facility (Figures 1 and 2). It is located at the head of a narrow valley, approximately 13.5 nm north-northeast of the complex support facility. There was no evidence of the site in [REDACTED]

[REDACTED] and construction activity was first observed in [REDACTED]. It was considered complete in [REDACTED]

The launch site, approximately 2,330 by 1,865 feet, is enclosed by an irregularly shaped security fence. It consists of the typical loop road pattern, 3 rectangular silos with doors, a control bunker, 2 possible semiburied tanks, and a probable spray pond. The north side of each silo is served by a short access road from the loop road. The control bunker and the 2 possible semiburied tanks appear as mounds

\*TOL site designator is indicated in parentheses.

within the loop road, on the west side of the silos. The probable spray pond is located west of the loop road, inside the security fence. Approximately 900 feet southeast of the silos are 2 earth-mounded missile RIM buildings. The western building is 145 by 45 feet and the eastern building is 175 by 45 feet. [REDACTED]

25X9

25X9

The facility consists of 4 earth-mounded buildings. An additional earth-mounded building is located adjacent to the site access road outside the security fence.

The site support facility is located approximately 3,300 feet south of the launch site. It consists of an administration section containing 21 buildings and a housing section containing 27 barracks-type buildings and 3 T-shaped headquarters-type buildings. Seven barracks-type buildings are in a separate group between the administration section and the housing section. Four more barracks-type buildings and 1 T-shaped building are located approximately 1,900 feet south of the launch site.
